

MOBILE CONFIDENTIAL SHREDDING SYSTEM

SSI offers mobile, low-speed, high-torque shredding systems designed for secure document destruction for businesses and government agencies.

SSI has engineered and developed a specialized solution for mobile confidential document shredding. SSI's low-speed, high-torque shredders can be custom mounted on a truck for contained, on-site document shredding. With over 4 tons of storage capacity, SSI's mobile shredding systems are an efficient tool for secure document destruction

MOBILE SHREDDING SYSTEM FEATURES

- Hydraulic drive shredder powered by truck motor
- 5/8" multi-hook cutters for minimal particle size
- Emergency stop on infeed hopper
- Hydraulically driven compactor
- Auto reversal feature
- Shock load protection
- Proprietary bearing and seal protection
- Direct drive configuration
- ACLS™ Advanced Cutter Locking System
- Moveable cleaning fingers
- Hydraulic storage discharge
- Storage capacity 4.5 tons

TRUCK FEATURES

- Hinged tailgate
- Hydraulic lift gates
- FRP siding on van portion
- Metal non-skid floor plate
- Interior lights
- Viewing window into storage hopper
- Diamond screen for tool storage
- Street legal weight

SYSTEMS SPECIFICATIONS

SHREDDER:	MODEL M55	MODEL M70H	MODEL M70E
Drive	Hydraulic	Hydraulic	Electric
Horsepower Range	25 - 30 HP	40 - 60 HP	40 - 60 HP
Cutting Chamber (W x L)	22" x 30" (580mm x 760mm)	27" x 30" (700mm x 1,015mm)	25" x 30" (635mm x 1,015mm)
Production Rate (lbs/hr)	800 - 1,500	1,800 - 2,200	3,000 - 4,000
Shaft Diameter	4" (105mm)	5" (132mm)	5" (132mm)
Maximum GVW	48,000 lbs.	54,000 lbs.	60,000 lbs.
